Compl-38922 Grievance

From: David W. Morris #01823344 Cell: 2N1-P

Date: 1-28-21

I arrived here at the Harris County Jail from the F.D.C. here in Houston, TX so or around the morning of 1-22-21

At some point during that evening I was placed in holding cell located in the 1200 Baker St. Medical Dept, to await consultation with psychology.

After complaining multiple times about the extreme pain I was in (L5-S1 spine injuries and failed surgeries, and that I needed something to lay on, I was escorted by officers to another holding cell nearby. I was then told that they were going to handcuff and shackle me. Once I started to try and explain the situation to them they attacked me.

My fingers, wrists, and arms were twisted into many awkward positions that sent shock-waves of pain through my body. The officers then placed the leg restraints on my ankles extremely tight, and the handcuffs on even tighter, with my hands cuffed at odd angles. I was left like that for many hours.

I frequently showed the camera I was still cuffed and shackled during that time.

I kept yelling to officers that I was in pain and that their actions were illegal. How restraints are to be used as a preventive measure not

positively.

I also had an asthma episode during that time and almost passed out. I yelled for help, and tried to use my rescue inhaler with just my mouth in the seating area, but it fell to the ground.

At some point I was taken to see ~~the~~ an psychological provider. She saw how swollen my hands were and how I could barely move my fingers.

After being given the prescribed psyc meds I basically became incapacitated but still conscious (barely). Later that night the handcuffs were removed, but the shackles were left in place.

At some point after that an inmate entered the holding cell with me. The door was then locked again behind him.

At first I did not understand what he was saying to me. I finally understood he was saying he was going to suck my dick. I got real nervous because I was still very weak, drugged, and my legs were still shackled. I told him "No I'm good," and pointed out the camera hoping to discourage him. Shortly after that he pulled my penis out and sucked it for a few seconds ~~He then left.~~ There was nothing I could do in my condition except get hurt.

At this time I still have the marks on my wrist.

my hands are still burning, ~~and~~ tingling and are very numb. I feel as though I am less than a man and am afraid something like this will happen again. I have had a few nightmares regard the incident and how helpless I was.

Thankyou For Your Time
